Member Guide

Everything you need to join, play, and thrive in our community.

Last updated: June 2026

Welcome to Honeydew Homes!

Honeydew Homes SMP is a cozy, non-PvP, cottage-core survival server on Minecraft Bedrock Edition. We're a close-knit community focused on building, exploring, and having fun together — no griefing, no drama, just good vibes.

How to Join

Step 1 — Join the Discord

Use the invite link above. Once you join you'll automatically receive the Non-Member role and a welcome message will appear in #general-lounge pointing you to #rules.

Step 2 — Read the Rules & Agree

Head to #rules. Read the short summary and click I Agree — Let's Play! You'll be asked for your Minecraft Bedrock gamertag. Enter it exactly as it appears in Minecraft including any spaces.

Age Requirement

You must be at least 13 years old to use Discord (Discord TOS).

Microsoft, PlayStation, and Nintendo Switch all require parental consent for minors to play online multiplayer.

By clicking I Agree you confirm you meet the age requirement or that a parent/guardian has done so on your behalf.

Mature Community Notice

Honeydew Homes is a mature community. Conversations are not always PG-rated.

By clicking I Agree you accept full responsibility for your participation.

Step 3 — Check Your Welcome Ticket

After submitting your gamertag a private ticket channel opens just for you with the server IP, port, and connection instructions. It closes automatically when you join the server for the first time.

Step 4 — Connect to the Server

Platform	Method	How
PC (Windows/Mac)	Direct Connect	Open Minecraft → Play → Servers → scroll down → Add Server. Enter IP and port 50057.
iOS / Android	Bedrock Together	Download the free Bedrock Together app, tap Add Server, enter IP and port.
Console	DNS Method	Follow the video guide linked in your welcome ticket. Free, no downloads needed.

What HeroBridge Does

When You Join or Leave the Game

- A message is posted in #in-game-chat when you join or leave.
- Your last played date is tracked to help keep the community active.
- You are automatically added to the server allowlist when you join.

When You Die in Game

- A death message is posted in #in-game-chat with your name, cause, coordinates, and dimension.

Chat Bridge

- Messages in #in-game-chat on Discord are delivered to the game server.
- Messages typed in-game are posted to #in-game-chat on Discord.

Inactivity Tracking

- The bot tracks when you last played.
- After 60 days of inactivity your Member role may be swapped to Non-Member and server access paused.
- To come back, simply re-onboard in #rules — click I Agree again and submit your gamertag. Your access will be fully restored.

AutoMod

- Spam and scam messages are removed automatically.
- Posting the same message in multiple channels quickly results in a temporary mute.
- Crypto, free Nitro, or other suspicious content is removed automatically.

HeroSync (!dsync)

HeroSync links your Discord account to your Minecraft gamertag, giving you a role prefix in game chat.

1. **In Minecraft**, type !dsync in chat. You'll receive a private 4-digit code. It expires in 5 minutes.
2. **In Discord**, run /sync and enter your 4-digit code.
3. **Done!** Your Discord nickname updates to your gamertag and your roles sync.
